(54) Titre : TRAITEMENT DE L'OBESITE PAR STIMULATION BILATERALE DU NERF VAGUE

(54) Title: TREATMENT OF OBESITY BY BILATERAL VAGUS NERVE STIMULATION

(57) Abrégé/Abstract:

A method of treating patients for compulsive overeating includes stimulating left and right branches of the patient's vagus nerve simultaneously with electrical pulses in a predetermined sequence of a first period in which pulses are applied continuously, alternating with a second period in which no pulses are applied. The electrical pulses are preferably applied to the vagus nerve at a supradiaphragmatic location.
